

## Mobile Banking Services

With Mobile Banking Services from Skyline National Bank, you can manage your money on the move, when and where it works for you. You can view your accounts, pay bills, transfer money, deposit checks... manage your finances in real time, all from a secure Skyline National Bank app on your smartphone or tablet!

**You also can manage your debit card through Mobile Banking.** Choose to receive alerts about your debit card transactions so you know of potential fraud; restrict when or where your card is used. You also can turn your card “off” through Mobile Banking if you think you may have misplaced it!

### **Interested in Mobile Banking? *It's easy to get started!***

1. Open your App Store (Apple) or Google Playstore (Android).
2. Once open, go to the search bar and type in “Skyline National Bank”.
3. You should see this icon The app icon for Skyline National Bank, which is a blue square with a white stylized 'S' inside.
4. Click on the app and click “get” or “install” and download the app.
5. Once it's downloaded, click on the app on your phone or tablet.
6. Then enter your username and password from your Skyline National Bank online banking account.
7. Agree to the terms and conditions.
8. Now you should now see all of your accounts!

***Not enrolled in online banking? No problem, just follow the download steps above and enroll through the mobile app.***
