

Happy Holidays from Skyline National Bank.

2020 has definitely been an adventure. As we close the final chapter on this year, we at Skyline are choosing to focus on the good rather than the bad. After all, this year has definitely taught us what we should be thankful for.

Words cannot express how grateful we are to our customers. The continued support throughout the changes and challenges of 2020 demonstrates just how wonderful our customers are. We couldn't have gotten through it without your patience and flexibility. We are truly thankful for each of you!

We also continue to be thankful for the health and wellbeing of our customers and employees. As we do our best to keep everyone safe, on December 14, we will again be transitioning to primarily drive-thru and mobile banking for the foreseeable future. For banking needs that can't be met at the drive-thru or by mobile banking, please contact your local branch and we'll find a time to meet with you. All branches will be accessible by appointment.

We wish each and every one of you a safe and healthy holiday season.
